INDEX.

A

Abortion complicated by fever, 766
Acetonemia, vomiting with, 144
Acromegaly, relation of, to thyroid disease, 190
Actinomycosis of the tongue, 507
Addison's disease, 282
Adrenal glands, relation of, to hypotension, 758
Adrenalin, injection of, 449
  sensitiveness of human organism to, 915
Agenesis of the cranial nerves, 744
Alastrim, experiments on, 929
Albumin reaction in sputum, 310
Alkali phosphates in spasmophilic, rachitic and normal children, 918
Amyloiditis, 430
Anders, J. M., relation of acromegaly to thyroid disease, 190
Anemia, pernicious, 605
Anesthesia in lumbar puncture, 738
Aneurysm of the left ventricle, 839
Apoplexy, ureteroplacental, 765
Appendicitis, symptoms of, in acute pericarditis, 40
Arnett, J. H., splenic and hepatic enlargement in endocarditis, 590
Arteritis, unknown forms, 250
Arthroplasty, 764
Aseptic wounds in the omentum of rabbits, 775

B

Bacillus dysenteriæ, phenomenon of d'Hérelle, 311
  influenzæ, inoculation with, 308
Bacteria in air passages, 622
  in appendicitis, 604
Bacterial flora of air passages of the common cold, 155
Bacteriologic studies of respiratory passages, 307
Bacterium tularense, 623
Barach, A. L., pericarditis in chronic nephritis, 44
Bartle, H. J., biliary tract disease, 60, 223
Bathing places, report of committee on, 927
B. botulinus toxin, test for, 466
Bernheim, B. M., gangrene associated with diabetes, 625
Bernheim, B. M., pain in threatened and real gangrene of the extremities, 517
Bile, stasis, varied character of, 922
Biliary tract disease, 60, 223
Black, D. R., urea concentration test, 218
Blood-sugar tolerance test as an aid in the diagnosis of gastrointestinal cancer, 33
Bone atrophy, 605
  density, reduction of, 297
  graftings, 141
  marrow in disease, 797
Bovine infection in tuberculous meningitis, 311
duBray, E. S., lymphatic leukemia associated with amyloiditis, nephritis and oral sepsis, 430
Bronchial tree, divisions of, 909
Bryant, J., visceral adhesions and bands, 75
Bubonic plague, 926

C

Cadwalader, W. B., agenesis of the cranial nerves, 744
Calcium solution as a coagulator accelerator, 449
Cancer, inoperable cervical, 769
Carcinoma of large bowel, 446
Casein of cows' milk and human milk, 299
Cenovis stomach tablets, 915
Cereal-milk mixtures in early infancy, 576
Cervical rib, 80
Choked disk, treatment of, 771
Cholecystectomy, 448
Cholecystitis without stones, 911
Cholecystostomy, 448
Chaulmoogra oil, influence of, on tubercle bacillus, 777
Clark, L. P., epileptoid or fainting attacks in hypopituitarism, 211
Clinics, infant welfare, 917
Colds, present status of the doctrine of, 914
Colic in breast-fed babies, 609
Colloidal-gold reaction in poliomyelitis, 608
  test, value and mechanism of, 153
Colonna, P. C., cervical rib, 80

Complement-fixation tests with two antigens, 295
Conus and epiconus medullaris, 342
Corpus striatum, lesions of, in childhood, 300
Craig, F. A., physical signs suggestive of aortic defects, 649
Craniotabes in infants, 917

D

Dacryoadenitis, tuberculous, 774
Dana, H. W., obstruction of the vena cava by carcinoma of the lung, 411
Davis, T. K., endocrinal factor in general paresis, 425
Denzer, B. S., diagnosis of peritonitis and peritoneal transudates in infants by means of abdominal puncture with capillary tube, 237
Dermatoconiosis among zinc oxide workers, 623
Diabetes and gangrene, 625
hyperpermeability of the liver in, 760
insipidus, 668
mellitus, 623
pancreatic extracts in treatment of, 910
Diamond, J. S., gastric ulcer, curability of, 548
Diaphragm irregularities, 826
Dietotherapy, postoperative, 272
Dunn, A. D., pachymeningitis interna, 819
Dyspnea, cause and control of, in disease of lungs, 157

E

Eclampsia, puerperal, cause of, 454
Ectopic gestation, 149
Eczema in young children, 637
Edema, acute circumscribed, 293
Elbow, mobilization of, 139
Ellison, R. T., biliary tract disease, 60, 223
Embolism after hysterectomy for myoma, 304
Empyema in infants and children, 452
nonoperative treatment of, 469
Encephalitis in children, 143
epidemic, 30, 871
lethargica and botulism, 467
Endocarditis, splenic and hepatic enlargement in, 590
Endocrinal factor in general paresis, 425
Enzymic mobilization by means of roentgen-ray stimulation, 101
Epileptoid or fainting attacks in hypopituitism, 211
Epstein, A. A., observations on nature and treatment of chronic nephrosis, 167
Epstein, S., infectious arthritis of the spine, 401
Erythemia, 797
roentgen-ray treatment of, 797
Eye of the aged, 152
Eyes, artificial, 772

F

Farley, D. L., relation of aleukemic leukemia, so-called pseudo-leukemia and malignant granuloma, 313
Farnam, L. W., pancreatitis following mumps, 859
Femur, fractures of, 912
reconstruction of neck of, 448
Fibroids complicating pregnancy and labor, 457
radiotherapy of, 148
Figi, F. A., actinomycosis of the tongue, 507
Fistula, operation for rectovaginal, 461
Floyd, R., organization of pneumonic exudates, 527
Foot, operations upon, 913
Formalin and Sachs-Georgi tests for syphilis, 762
Fox, H., relation of aleukemic leukemia, so-called pseudo-leukemia and malignant granuloma, 313
Fractures of the femoral diaphysis in children, 603
Friedenwald, J., blood-sugar tolerance test as an aid in the diagnosis of gastrointestinal cancer, 33
Fruits, antiscorbutic value of dried, 916
Function of the kidney, 1
Fussell, M. H., symptoms of appendicitis in acute pericarditis, 40

G

Gall-bladder, activity of, 922
Gangrene and diabetes, 625
of extremities, 517
Gastric operations, 139
ulcers, surgical management of, 764
juice in human beings, effect of yeast in part, 915
Germanium dioxide, 364
Gestation, ectopic, 149
Gibbon, J. H., nonoperative treatment of chronic empyema, 469
Glenn-Ravdin, E., pneumonia and empyema in children, statistics concerning, 246
Goiter in man, 634
treatment of, 762

Gram-negative cocci in colds and influenza, 923
Granuloma, malignant, 313
Graves, G. W., role of concentrated cereal-milk mixtures in early infancy, 576
Gray, H., latent neurosyphilis of medical patients ignored owing to neglect of lumbar puncture, 384
Griffith method for isolation of tubercle bacilli, 621
Grove, G. H., blood-sugar tolerance test as an aid in the diagnosis of gastrointestinal cancer, 33
Gunshot injuries to the brain, 140

H

Hanchett, McM., experimental polyuria, 685
Harbitz, F., unknown forms of arteritis, 250
Hartman, H. R., prevalence of free hydrochloric acid in cases of carcinoma of stomach, 186
Headache, 926
Heart disease and pregnancy, 610
in infectious disease, 335
Heat resistance of spores, 619
Hemorrhage from the common carotid artery, 140
Hepatic function, a new test of, 759
tumor with pulmonary metastases, 710
Herpes zoster and disease of internal organs, 294
Histologic changes produced by arsphenamine and neoarsphenamine, 154
Hydrocephalus, studies on, 450
Hydrochloric acid in carcinoma of stomach, 186
Hypopituitarism, calcification of pituitary with, 491

I

Idiocy, Mongolian, 453
Immunity of wild rats to plague, 925
Inanition fever of newborn, 300
India-ink injected into the blood, 619
Infants, feeding of, 142
Influenza patients, nasopharyngeal secretions from, 309
Iszard, M. S., erythropoietic action, cumulative effect and elimination of germanium dioxide, 364

J

Jejunal ulcer, 296
Jameson, H. L., relation of acromegaly to thyroid disease, 190

K

Kahn, M. H., aneurysm of the left ventricle, 839
Kay, J. A., symptoms of appendicitis in acute pericarditis, 40
Keilty, R. A., Addison's disease, 282
Kennedy, F., peripheral and radicular types of epidemic encephalitis, 30
Kidneys in pregnant and puerperal women, 612
Kimball, O. P., prevention of simple goiter in man, 634
King, D. S., influenzal meningitis, 675

L

Leprosy, treatment of, with chaulmoogra oil, 925
Leukemia, 430
aleukemic, 313
Lewis, T., quinidine in auricular fibrillation, 781
Liver and bile passages, infection of, 485
Lobelia as a respiratory depressant, 449
Lowenstein, P. S., relation of the pituitary gland to epilepsy, 120
Lumbar puncture, anesthesia in, 738
Lyon, B. B. V., biliary tract diseases, 60, 223

M

McEllroy, determination of sugar in small amounts of blood, 571
McIntosh, R., obstruction of the vena cava by cancer of the lung, 411
McKean, R., influenzal meningitis, 675
McKean, R. M., lowered vital capacity of the lungs, 710
McLester, J. S., influence of salt restriction in nephritis, 794
Malaria, salvarsan in, 450
Malignant disease, 777
Malnutrition in children, 301
Malnutrition in relation to tuberculosis, 930
Matson, R. C., diaphragm irregularities, 826
Measles, experimental, 918
serum prophylaxis of, 607
Meinicke and Sachs-Georgi reactions in syphilis, 294
Meningitis, influenzal, 675
Mental disorders in children following encephalitis, 143
Metabolism of infants fed on dry-milk powder, 925
Milk, cow's, effect of heat on calcium salts and rennet coagulability of, 929
Milk pasteurization, 468
Mobilization of the elbow, 139
Monkeys, pathogenicity of B. abortus and B. melitensis for, 926

Monoplegia, brachial, 899
Morse, P. F., clinical and pathological findings in nephritis, 697
Müller, J. H., erythropoietic, cumulative effect and elimination of germanium dioxide, 364
Mumps meningitis, 925
Myopia, genesis of, 771

N

Nasal cavity, reactions of, 467
Nature and treatment of chronic nephrosis, 167
Necrosis of the intestine, 456
Nephritis, 430, 697
  febrile stages in, 882
  salt restriction in, 794
Nerve sutures, 761
Newborn, intracranial bleeding in, 921
New, G. B., actinomycosis of the tongue, 507
Neurosyphilis, latent, 384
Nitrous oxid-oxygen analgesia and anesthesia in labor and obstetrics, 145
Norris, G. W., cause and control of dyspnea in disease of lungs, 157

O

Ocular syphilis, 151
Omentum, aseptic wounds in, 775
Operations for relaxed pelvic floor, 616
Oral sepsis, 430
Os calcis fractures, 141
Osteochondritis, 912
Otitis media, 773
Ovary, lutein cells in, 919
Oyster purification, hypochlorite process of, 312

P

Pachymeningitis hemorrhagica interna, 819
Pancoast, H. K., bone-marrow in disease, 797
Pancreatitis, experimental production of, 763
  following mumps, 859
  traumatic, 911
Paresis, 425
Parker, H. L., tumors of the cauda spina and epiconus medullaris, 342
Pellagra, treatment and prevention of, 913
Pellagra, etiological factor in, 928
Pelvic surgery, drainage, 303
Pendergrass, E. P., bone-marrow in disease, 797
Pericarditis in chronic nephritis, 44
  symptoms of acute appendicitis in, 40
Peritonitis and peritoneal transudates in infants, diagnosis of, 237
Petersen, W. F., enzymic mobilization by means of roentgen-ray stimulation, 101
Petersen, W. F., roentgen-ray stimulation of the pancreas in pancreatic deficiency, 391
Pfahler, G. E., calcification of the pituitary with hypopituitarism, with treatment, 491
Physical signs suggestive of aortic defects, 649
Pitfield, R. L., calcification of the pituitary with hypopituitarism, with treatment, 491
Pituitary gland, relation of, to epilepsy, 120
Pituitrin, effect of, on specific gravity of gravity, 449
Placenta, expulsion of, 303
Plantar reflex in early life, 451
Pleychondromata, multiple, 605
Pneumonia and empyema in children, 246
  heart muscle changes in, 659
Pneumonic exudates, 527, 758
  and postpneumonic empyema, 452
Poliomyelitis, orthopedic treatment of, 445
Pollock, H. O., determination of sugar in small amounts of blood, 571
Polyuria, experimental, 685
Pregnancy, ectopic, 920
Price, C. E., epidemic encephalitis, 871
Protein in disease processes, 776
  and mammary secretion, 609
  sensitization, incidence of, 452
Pseudoleukemia, so-called, 313
Pupils, difference in size of, 772
  inequality of, 773

Q

Quinidine, action of, on a dog's heart, 760
  in auricular fibrillation, 449, 781

R

Rabbits, susceptibility of, to virus of measles, 621
Rabbit, syphilis in, 155
Rackemann, F. M., skin tests with foreign proteins in various conditions, 87
Radiation versus surgery in treatment of myomata, 767
Radiotherapy in cervical cancer, 460
  of fibroids, 148
  of menorrhagia, 614
Radium effect on cancer, 615
Rats, experimental rickets in, 306
Regan, J. C., anesthesia in lumbar puncture, 738

Respiratory tract in man, 923
